

2017 Dave Lawson Memorial Scholarship

The Bridge Technical Committee (BTC) is a technical subcommittee of the Arizona Society of Civil Engineers (AzSCE). The mission of the BTC is to provide the opportunity for owners, consultants, contractors, and students to participate in regular structured discussions on technical issues related to the design, construction, fabrication, testing and maintenance of bridges within Arizona. The BTC also strives to bring awareness to students pursuing the specialty of structural engineering within the broader field of civil engineering.

The purpose of the BTC Scholarship is to motivate and reward students who demonstrate excellence in civil engineering studies at state universities in the State of Arizona* and who express an interest in pursuing a career in the design or construction of structures.

This year, the Scholarship is being offered in memory of Dave Lawson, a respected engineer within the Arizona bridge community and former officer of the BTC, who passed in September of 2015.
