

## Fall 2011 Outstanding Graduate

# Ehsan Kabiri Rahani

Civil Engineering and Engineering Mechanics

“Under my direction, Ehsan worked on a research grant from the Air Force Office of Scientific Research (AFOSR) for developing NDE techniques for space shuttle tiles using electromagnetic THz rays. He studied the subject by himself and mastered the topic.”

“Ehsan has co-authored 2 book chapters and 8 journal papers and 2 more journal papers are under review.”

“He has received a Post Doc scholar offer from Brown University and was hired.”

Nominated By:  
Tribikram Kundu, Professor

*Ehsan Kabiri Rahani and CEEM Professor Tribikram Kundu.*
