

Fall 2013 Outstanding Graduate

Donghwi Jung Civil Engineering & Engineering Mechanics

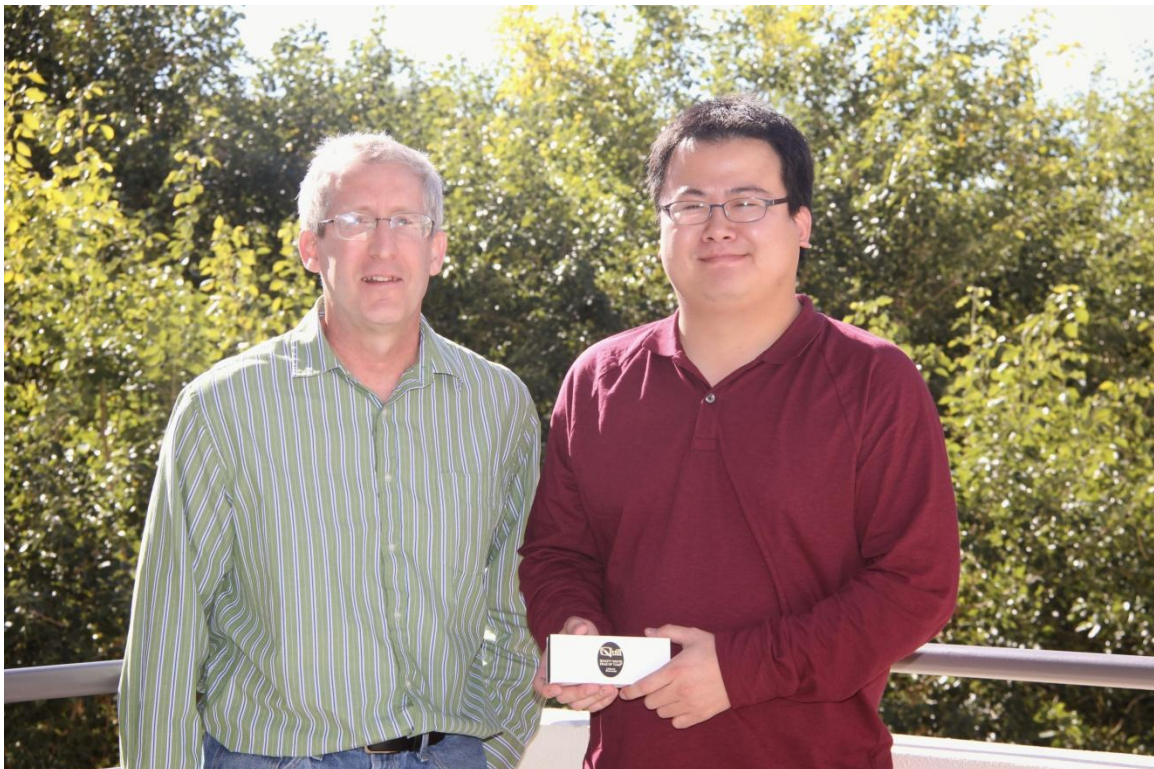

"As a researcher, he has excelled as part of the EFRI RESIN team, producing stellar scholarly works, working with our industrial partners and collaborating with and guiding Master's students.

His dissertation is related to robust and resilient water systems and includes three journal publications. A paper has been accepted for publication in an *ASCE Journal*.

Donghwi has been a special graduate student and is well liked and respected by his fellow students. His work ethic is tremendous and he spends his time wisely to be productive."

Nominator: Kevin Lansey, Professor and Department Head

CEEM Department Head and Professor Kevin Lansey and Donghwi Jung.
