

Spring 2013 Outstanding Teaching Assistant

Seyedreza Anvar

Civil Engineering and Engineering Mechanics

“Reza is responsible for our geotechnical engineering laboratory. He is a structural engineer by training...preparing one lecture per week and organizing materials & content for two -three hour lab periods.

Reza’s organization skill with his ability to communicate with the students translated to the students voting him as outstanding TA for this year.”

Nominator: Kevin Lansey, Professor and Department Head
