

## Spring 2012 Outstanding Teaching Assistant

# Kristen Ward

Civil Engineering and Engineering Mechanics

“Kristen is a doctoral student in our program.

The CEEM department restructured TA responsibilities for CE 214 from fall 2011. Kristen’s responsibilities included conducting recitation sessions four times a week, grading HWs, and helped students during her office hours.

She took her responsibility very seriously and I was extremely satisfied with her performance. I also heard positive comments from the students.”

Nominated By: Achintya Haldar  
Professor
